Ragfinery is proud to present The Fancy Pants Runway Challenge. In the spirit of fun creative reuse, this event tasks participants with transforming one pair of pants into something unique, expressive, and wearable. Twenty-five participants have had two months to work on their creations, and on Friday, May 20th, they’ll show their creation on the runway in front of judges and you, the audience. Participants will be competing for cash and gift prizes in the categories of “Chicest,” “Creative Transformation,” and “Presentation.” The Fancy Pants Runway Challenge will be held at the Leopold Crystal Ballroom for this “funny” experience. Box, wine, and refreshments will be served while DJ-Alternate分开 provides the audio backdrop for the event. In addition to creating a fun, creative, community event, Ragfinery aims to increase awareness about the massive amounts of textiles entering the waste stream and provides resources, education, and opportunities for creative reuse and upcycling while creating full training opportunities for low-income residents. For more information, please visit us at our downtown location or at Ragfinery.com.
